

Call-for-Papers for the 6th International Ruhr Energy Conference (INREC)

Energy, Climate Change and the Macroeconomy

September 12-13, 2017, Essen, Germany

Conference objectives

This conference will have a particular focus on the link between macroeconomics and energy and will be covering all functional areas of energy finance and energy economics. Our goal is to stage an interdisciplinary platform for researchers from different fields and give insights on energy challenges from diverse viewpoints.

Conference topics

- Energy price modelling
- Commodity markets and spillovers
- Energy market (dis-)equilibria
- Energy innovations & energy markets
- Energy prices, consumption and growth
- Energy policies and economic impact
- Monetary policy, spillovers and energy policy
- Global liquidity and energy trade
- Financing energy infrastructure
- Risk measurement and management
- Regulation and regulatory risk
- Asset valuation
- Alternative climate policies
- Fluctuation of renewables and markets
- Oil prices and world savings
- Energy and foreign exchange markets

The conference language is English. The standard participation fee is 150€. There are reduced fees for speakers (120€) and full-time students (90€), as well as an early registration discount of 30€.

Please use the following link www.inrec.org for registration and send your extended abstracts (300 to 500 words) to abstracts@inrec.org.
